Announcement as of Nov. 12

International Workshop on Floods (Heavy rainfall) Disaster Mitigation

Co-organized by
Chulalongkorn University/Faculty of engineering/Department of Civil Engineering
International Society on Soil Mechanics and Geotechnical Engineering/TC303(Floods)
Kansai University/Division of International Affairs#

"Floods", "Landslides", "Heavy Rainfall" are important issues for the safety of a society. In 2026, we have a severe "Floods" related disaster in Chiba/Japan, Bangkok/Thailand, and many other areas in the world. Considering this current status, we would like to enhance international exchanges of our experiences and knowledges, and also motivate students to work to solve this problem.

DATE: March 8, 2027 (Mon.; Workshop) and March 9, 2027(Tue.; Study tour)

VENUE: Chulalongkorn University, Bangkok, Thailand

- **The workshop at Civil Engineering Building, Chulalongkorn University**
- **Partially hybrid**
- **Study tour maybe on-site gathering and dismiss in Bangkok (TBD)**
